1. Trading and financial update

The Chief Financial Officer presented the Q4 and full-year FY2024 trading position. Group revenue for FY2024 is expected to be approximately **\$4,990m**, ahead of the prior year, with advertising and subscriptions the principal drivers. Reported EBITDA remained robust and cost discipline measures introduced earlier in the year were tracking to plan. The Board noted the resilience of the LumenX advertising business and continued growth in subscriptions.

Metric (FY2024, indicative)	Value
Group revenue	~\$4,990m
Monthly active users	~614m
Mobile MAU	~407m
Capital allocation priority	Reinvestment in identity & ad-tech; selective buyback

2. Capital allocation

The Board reviewed the capital-allocation framework. Management recommended continued reinvestment in the identity graph (AtlasID) and advertising technology, the maintenance of a conservative balance sheet, and a modest continuation of the existing buyback programme. The Board approved the framework as presented.

3. Strategy

The Chief Executive Officer summarised the medium-term strategy: deepen logged-in engagement, expand first-party addressable advertising and modernise the legacy technology estate. The Board supported the direction and requested a fuller strategy review in 2025.

4. Risk

The Risk Committee Chair provided a routine update. The principal risks remained competition for advertising spend, regulatory developments in privacy, and technology modernisation execution. No new material risks were

reported. The Board noted the information-security assurance programme was operating as expected.

5. People and governance

The Board noted senior-leadership stability and approved the FY2025 committee memberships. No related-party matters were reported.
