Minutes of the previous meeting. The minutes of the Q4 2024 meeting, having been circulated, were approved as a correct record and signed by the Chair. There were no matters arising not otherwise covered by the agenda.

1. Trading update

The Chief Financial Officer reported a solid start to FY2025. Advertising demand was stable and subscriptions continued to grow. The Board noted no significant variances to plan and confirmed the FY2024 audit had concluded with an unqualified opinion.

2. Product strategy

The VP Product, Identity and Mail presented the product strategy, centred on the AtlasID identity graph and monetisation of logged-in audiences. The Board discussed the strategic importance of durable first-party identity as third-party identifiers decline, and the opportunity to extend addressable reach across properties.

- Grow the logged-in, consented audience and improve cross-property match rates.
- Expand higher-margin first-party data products on the LumenX exchange.
- Continue modernisation of identity and authentication platforms.

3. Strategic options (preliminary)

The Board held a preliminary discussion of strategic options, including the potential value of the franchise to a strategic acquirer with a complementary customer base. No decision was taken; management was asked to develop the analysis for a later meeting.

4. Risk and compliance

A routine risk and compliance update was received. The privacy programme and information-security assurance were reported as operating effectively. No material matters were raised.

Any other business and close

There being no other business, the Chair thanked attendees and declared the meeting closed. The next scheduled meeting of the Board is to be held on 15 May 2025.
