Meeting	Meeting of the Board of Directors of VistaPort Media Inc.
Date & time	11 December 2025, 14:00 (held by video-conference)
Chair	Margaret Ellison
Secretary	Diane Foster, Corporate Secretary
Quorum	A quorum being present, the Chair declared the meeting open.

Apologies: Paul Brenner sent apologies, which were noted.

Minutes of the previous meeting. The minutes of the Q3 2025 meeting, having been circulated, were approved as a correct record and signed by the Chair. There were no matters arising not otherwise covered by the agenda.

1. Trading update

The Chief Financial Officer presented the Q4 and preliminary full-year FY2025 position. Group revenue for FY2025 is expected to be approximately **\$5,150m**, with adjusted EBITDA of approximately \$775m. The Board noted some softness in advertising impressions and email engagement late in the year, which management attributed to seasonality and short-term operational factors, with recovery expected into Q1 2026.

2. Strategic process update

The VP Corporate Development reported continued constructive engagement with a strategic counterparty and progress on data-room readiness. The Board supported the planned process timetable into the first half of 2026.

3. Technology and information security update

The General Counsel introduced an update from the Chief Information Security Officer. Management reported an **account integrity workstream** underway during the quarter, together with a **Trust Reset** programme of staged credential-hygiene measures (password resets and session refresh) intended to maintain account hygiene across the estate. These were described as operational matters being managed by the security and technology functions. The Board noted the operational impact on near-term engagement metrics referred to under item 1.

The General Counsel further noted **increased legal review of a network-quality matter** identified earlier in the quarter, in respect of which external advisers had been engaged to support the Company's assessment. The internal workstream is referred to under the codename **AURORA**. Management's current view, which the Board noted, is that the materiality of the matter is **not yet determined** and that it would be kept under review as further information becomes available. The Board asked to be updated at the next meeting and as appropriate in the interim.

4. Risk

The Risk Committee Chair noted the items above had been discussed at committee and that the Committee was satisfied that the matters were being managed with appropriate external support. The Committee would continue to

monitor and report to the Board.

5. People

The Chief Human Resources Officer noted the development of key-employee retention arrangements ahead of the process and reported on senior-team stability. The Board noted the position.

6. Audit Committee report

The Audit Committee Chair reported on the FY2025 reporting timetable and the framework for contingency reserves, noting that any reserve in respect of operational matters would be set on a basis the Committee considered proportionate to estimable exposure.

Any other business and close

There being no other business, the Chair thanked attendees and declared the meeting closed. The next scheduled meeting of the Board is to be held on 5 March 2026.
