

Disclosure Committee Minutes — 29 October 2025

VistaPort Media Inc. — Corporate and Board

Document ID	DR-013
Prepared by / owner	Priya Raman
Date	29 October 2025
Classification	Strictly Confidential — Project Atlas
Body	Disclosure Committee
Privilege	Prepared at the direction of counsel

Committee	Disclosure Committee of VistaPort Media Inc.
Meeting date	29 October 2025 (15:30, by video-conference)
Chair	Priya Raman (General Counsel)
Present	Priya Raman (Chair); Daniel Cho (CFO); Grace Okafor (CPO); Owen Bell (CISO); Hannah Brooks (Deputy GC); Diane Foster (Secretary)
Classification	Privileged & confidential — prepared at the direction of counsel

These minutes are prepared at the direction of the General Counsel for the purpose of obtaining and providing legal advice and are intended to be privileged.

1. Purpose

The Committee convened to consider recent operational and security matters and their potential disclosure implications for the Company, in light of the ongoing strategic process and the Company's reporting obligations.

2. Background considered

The Committee considered a summary prepared by Security Engineering and the General Counsel's office concerning anomalous activity first observed on or around **18 October 2025** affecting a **legacy profile backup** associated with the legacy unified account profile store (**legacy_uap**). The matter had been opened as an internal investigation and assigned the network-quality reference **NQ-17**; the related forensic workstream is code-named **AURORA**.

Date	Item noted by the Committee
18 October 2025	Earliest anomalous activity observed against the legacy profile backup (per access-log review).
20 October 2025	Anomalous activity ceased; certain session-validation patterns noted for further review.
21 October 2025	Internal investigation opened by Security Engineering.
23 October 2025	Matter assigned reference NQ-17 and managed as a network-quality investigation.
27 October 2025	External forensic adviser engaged (workstream AURORA).

3. External advisers

The Committee noted that **IronLake** Forensics had been engaged on an expedited basis to conduct an independent technical assessment, and that outside privacy and regulatory counsel were available to advise. Findings from IronLake were awaited and were expected to be material to any assessment.

4. Disclosure assessment

- The Committee concluded that, on the information presently available, the materiality of the matter is **not yet determinable** and that any conclusion would be premature pending the IronLake forensic findings.

- Pending those findings, functions were directed to **avoid speculative or conclusory terminology** (including characterising the matter as a confirmed breach or exfiltration) in internal and external communications, and to describe the matter factually by reference to the investigation.
- Any external disclosure, regulatory notification or customer communication should be considered only on the basis of the forensic findings and on the advice of counsel.
- The Committee **deferred the disclosure decision** to a subsequent meeting to be reconvened on receipt of the IronLake assessment.

5. Tension noted

The Committee recorded a discussion between the importance of caution and the need for candour. The Chief Privacy Officer emphasised that, if the forensic assessment indicated unauthorised access to personal data, notification obligations (including to the Irish Data Protection Commission as lead supervisory authority) could be engaged and time-sensitive. The Chair confirmed the Company would act on the advice of counsel once the facts were established, and that the matter would be kept under active review.

6. Actions

Action	Owner	Timing
Obtain and review IronLake Phase 1 findings	General Counsel / CISO	On receipt
Maintain factual, non-conclusory internal language re NQ-17 / AURORA	All functions	Immediate
Prepare a privacy-law assessment of notification triggers	Chief Privacy Officer	In progress
Reconvene Committee on the forensic findings	Secretary	To be scheduled

Approved by Priya Raman, General Counsel (Chair)
Minuted by Diane Foster, Corporate Secretary

Privileged & confidential. Subject to the Project Atlas NDA and clean-team protocol. Held by the Office of the General Counsel.
